

Embrace life, have faith and keep hope alive...

Founded in 2002, **Project Valentine** is a non-profit organization (501c3) run entirely by volunteers. Each year on Valentine's Day, we distribute 500-700 care packages to patients receiving chemotherapy in Denver Metro hospitals and clinics. This year, it is our goal to brighten the day of **more than 700** men, women and children receiving cancer treatment on Valentines Day.

How can you help?

Donate items for the gift bags! Donate your time – get involved!
